TO OUR VALUED CUSTOMERS

Our goal is offering the right products at the right price at the right time. However, in the new climate created by COVID-19 limitations, we face new challenges in achieving our goal. Restrictions resulting from the pandemic have been felt everywhere, and the suppliers of many home improvement products have not been spared. Production cycles were reduced or sometimes halted during the spring lockdown, which has created shortages or delays in many categories, and unforeseen price fluctuations, particularly in the lumber category.

We at TIMBER MART are using all our resources to provide the home improvement products you need and apologize if there are any inconveniences due to delays.

Thank you for your understanding and for choosing TIMBER MART.

Build A Little Style

Door Exchange

We have the biggest selection of interior doors

It's fast, easy and can save you up to 75% of the cost to replace your interior doors the old fashion way.

STEP 1 Remove the door from the hinge by knocking out the hinge pin. This is easiest to do with two people.

STEP 2 Bring the door to one of the two **Kingdon TIMBER MART** locations with the 1/2 hinge attached. Select your new door and door hardware.

STEP 3 **Kingdon TIMBER MART** will attach the 1/2 hinge to your new door in the exact position of your existing door, drill the door knob hole and trim the door to the exact size of the existing door for fast and easy installation. Pick up your new door in 1 week.

Materials not included. See in-store for details.

The Benefits Of Fibreglass Insulation

Making your home more energy efficient is an investment. Winter is on it's way and proper insulation will help you save on your monthly heating bills. One way of the best ways is installing fibreglass insulation in walls, attics, ceilings, crawl spaces and basements. Below are some of the many benefits of insulating with fibreglass insulation:

- An effective insulation for an economical price
- High R-value when properly installed
- Airtight seal when used with vapour barrier
- Does not shrink, burn and is insect proof
- Standard pre-cut sizes for easy installation with wall studs, attic rafters and ceiling joists
- Very flexible. Offers a snug fit that will stop airflow and heat transfer
- Noise-cancelling abilities due to natural sound-dampening properties of fibreglass

Do you have enough insulation? Now's the time for an upgrade
